

At Mezzalira we are passionate about our wines. You could say that it is a journey of experiences and influences that have seen us involved in the food and wine industry for the past 17 years. The wines we have chosen are based on a philosophy that we carry through to our kitchen. Bringing together the best of Australian produce with the flavours of Italy.

The real joy of wine is in the experience of sharing. Our wine list is a collection of wines that allow you to experience the diverse Italian varietals from both Australia and Italy through to the iconic Australian wine styles that the world has come to know us. We want Mezzalira to be a place where discoveries are made, and discussions ensue.

Buon Appetito!

Clonakilla

Dr. John Kirk immigrated to Australia from Ireland to work as a research scientist at the CSIRO in 1968. In 1971, he founded Clonakilla, named after the farm owned by his grandfather in Ireland. The name of the winery translates to "meadow of the church".

Clonakilla was the first commercial winery to open in the region and John Kirk is often referred to as the "father" of the wine industry in the area. The flagship wine is the Shiraz Viognier blend, produced from a selection of the best grapes in a single twelve hectare vineyard. The two grape types in this wine are co-fermented, with around five to ten percent Viognier and the rest Shiraz, depending on vintage conditions. This wine was first produced by Clonakilla in 1992 after Tim Kirk had spent time in the northern Rhone Valley, specifically visiting Guigal, and he decided that it was a style that he wanted to emulate and that it would be well suited to the Canberra region.

The Shiraz Viognier is described by James Halliday as having "icon status" and as being the best example of this wine style in Australia.

Jancis Robinson has identified it as the "pioneer" of the blend in Australia.

It was recognised at the Outstanding level of the Langton's Classification of Australian Wine in 2005, and was elevated to the highest level of "Exceptional" in 2010.
